

CHANGE THE DESCRIPTION 698 events

L5?

New move

1 event — change what counts as a move

L4

New object

181 events — a kind of thing the language lacked

L3

Transfer

189 events — one field's language into another

L2

Retyping

501 events — two things are one, or one is two

L1

Reinterpretation

38 events — same predictions, less structure

L0

Regression

131 events — solve inside the existing description

everything machine learning does today — 1 rung of 6, 131 of 1,041 labels

CHANGE THE FACTS

479 events

measure what was not
previously in hand

CHANGE THE INSTRUMENTS

186 events

make observable what could
not be observed at all
